State Hospital Top 100 DRG Payments Summary Analysis

“State Hospital Top 100 DRG Payments Summary Analysis” is available on request. Report format will be same as Nebraska sample report.

Definition/Abbreviation

“DRG” = Diagnosis-Related Groups

“Total Discharges”

The number of discharges billed by the provider for inpatient hospital services.

“Average Covered Charges”

The provider's average charges for services covered by Medicare for all discharges in the DRG.

“Average Total Payments”

The average of Medicare payments to the provider for the DRG including the DRG amount, teaching, disproportionate share, capital, and outlier payments

for all cases. Also included are co-payment and deductible amounts that the patient is responsible for.

“Total Covered Charges”

Total Covered Charges= Average Covered Charges x Total Discharges

“Total Payments”

Total Payments = Average Total Payments x Total Discharges

“Dataset Contents”

Data are being released that show significant variation across the country and within communities in what providers charge for common services. These data include information comparing the charges for the 100 most common inpatient services and 30 common outpatient services. Providers determine what they will charge for items and services provided to patients and these charges are the amount the providers bills for an item or service.
